Maybe even better than free.

filehosting provides an easy possibility for you to send large files to your friends. Just upload the file you want to share with your friends and we send you a download link to your file. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. File is free to use with no gotchas and no hidden fees. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many teamchat apps have limits to the size of files that can be transferred within their apps. Simply upload your file and share the link. You can give this download link toyour friends by mail or instant messenger. Keep your files private, or send your download links only to friends or family. We have no file size limit. This iseasy, fast and reliable filehosting! You don't need any kind of premium-accounts. If only we could, we surely would! On the other hand, using file can actuallysave you money. Alternatively you can choose to share your download links on blogs, forums and social networking sites. No account or credit card is required to get started. There are no restrictions on the number of times a file can be downloaded. You can upload any type of file (movies, music, documents, images,zip files and more). So try our free and simple filehosting service now. Unfortunately, we can't make that part free. Any file in any format can be uploaded and downloaded for free. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. The cost of that data transfer is covered by your internet service or the dataplan on your phone. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. It is also allowed to link to the downloadedfrom any computer from our high speed servers. You don't need any special software installed to be able to download your files. Using
